IN THE CLAIMS

Please amend the claims as follows:

- 1. (original) A luminescent screen comprising particles of luminescent material embedded in an inorganic material, characterized in that the inorganic material comprises aluminium phosphate.
- 2. (original) A luminescent screen as claimed in claim 1, wherein the inorganic material further comprises particles of an inorganic oxide.
- 3. (original) A luminescent screen as claimed in claim 2, wherein the inorganic oxide comprises a compound chosen from the group formed by aluminium oxide and silicon oxide.
- 4. (currently amended) A discharge lamp equipped with a luminescent screen as claimed in claims 1, 2 or 3claim 1.
- 5. (original) A discharge lamp as claimed in claim 4, wherein the discharge lamp comprises a lamp vessel that is transparant for visible light and the luminescent layer is deposited on part of an inner wall or part of an outer wall of the lamp vessel.

- 6. (original) A discharge lamp as claimed in claim 5, wherein the luminescent screen is covered by a top layer.
- 7. (original) A discharge lamp as claimed in claim 6, wherein the top layer comprises a compound chosen from the group formed by yttrium oxide, yttrium-strontium-borate and aluminium oxide.
- 8. (currently amended) A discharge lamp as claimed in $\frac{1}{2}$ $\frac{1}{2}$ $\frac{1}{2}$ wherein the discharge lamp is a fluorescent lamp.
